Reasons for Allowance

The following is an examiner's statement of reasons for allowance: the invention relates to compounds of formulae I and II. The closest prior arts of Druzgala et al., US 5,440,054 and 6,316,487, and by Druzgala, US 5,849,788, disclose similar compounds. But in the instant compounds, when $m = 0$, there is no substituent on the hetero ring and when $p = 0$, and $m = 1$, the substituent is a methyl. When $m = 1$ and p is at least 1, such would have been adjacent homologs of the compounds of the prior arts cited above. However, the instant compounds are amended away from adjacent homologs of the prior arts' compounds with the proviso that R1 and R2 may not be H at the same time.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
